# FOLD

FOLD, designed by Barbieri Magalini for Prodital Leather, is a series of refined Nabucco leather artworks inspired by the ancient Japanese art of origami. Through this creation, the creative duo Barbieri Magalini shifts the focus from the material, leather, to the creative process, immortalising a crucial moment in the origami creative process: the first fold.

Each piece represents a canvas of solids and follows a strict colour scheme, reflecting their rationalist and essentialist aesthetic.

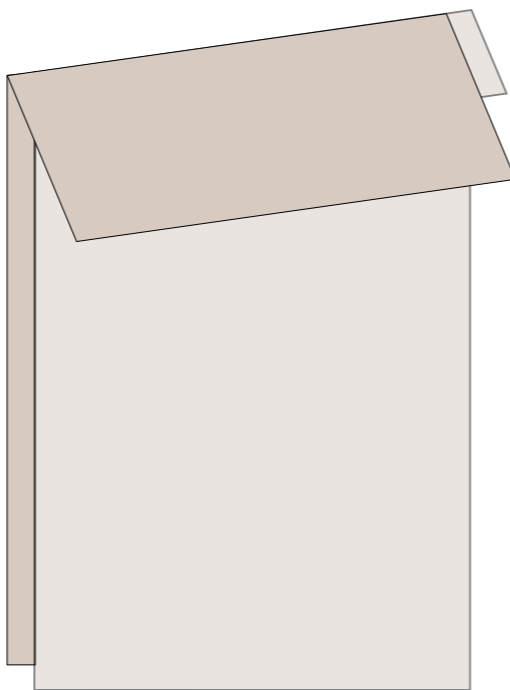

## Behind the project

Barbieri Magalini is a creative duo. Brand custodians, curators, interpreters of the 'Made in Italy' ethos, seekers of charm. These definitions encapsulate the modus operandi of the creative duo Barbieri Magalini, designers of this project. Their creative approach is nurtured and carefully guarded, always driven by a spirit of excellence and a panoramic vision that draws from worlds closest to them, such as architecture, art, fashion, design, cuisine, and music.
